

Seasonality Analysis Report

Analysis Period: FY Jul-2025 to Jun-2026 | Prepared by: Arun Mathew, Sales & Marketing Executive

Historical sales data shows a consistent seasonal pattern driven by Kerala's festival calendar - Onam (August-September), Christmas & New Year (December) and Vishu (April) all drive spikes in lighting and gifting-related electronics demand.

Seasonal Index by Month

Month	Seasonal Index	Note
Jul-2025	0.9	Monsoon - steady baseline demand
Aug-2025	1.15	Onam season - peak decorative lighting demand
Sep-2025	1.05	Post-Onam - demand still elevated
Oct-2025	0.95	Moderate - normal trading month
Nov-2025	1.0	Steady - pre-Christmas dealer restocking begins
Dec-2025	1.2	Christmas & New Year - peak lighting and gifting demand
Jan-2026	0.85	Post-festival correction
Feb-2026	0.9	Low season - steady baseline demand
Mar-2026	0.95	Financial year-end dealer restocking
Apr-2026	1.05	Vishu festival - decorative lighting demand rises
May-2026	0.95	Summer - moderate demand
Jun-2026	0.9	Monsoon onset - softer demand

Recommendation

Increase safety stock for LED Lighting products by 20% ahead of Onam (August) and Power Electronics / gifting-friendly items (Power Banks, Mini UPS) by 15% ahead of Christmas (December) - within VOLTORA's limited SME inventory budget.
