

Packing Standard Operating Procedure

Document No: SOP-WH-04 | Effective Date: 01-Jul-2025

Procedure Steps

- Step 1: Verify picked items against the Sales Order and generate a Packing List.
- Step 2: Pack items using approved cartons, ensuring PCB-based items (IoT modules, smart switches) are cushioned against static discharge and impact.
- Step 3: Affix the Packing List and shipping label showing Sales Order number, customer, and destination.
- Step 4: Weigh and record final package weight for freight costing.
- Step 5: Move packed order to Dispatch Staging.
