

Picking Standard Operating Procedure

Document No: SOP-WH-03 | Effective Date: 01-Jul-2025

Procedure Steps

- Step 1: Picker receives a pick list sorted by bin location sequence for the Sales Order.
- Step 2: Pick items using FIFO, verifying product ID against the pick list.
- Step 3: Update the stock register to decrement system stock for each item picked.
- Step 4: Stage picked items at the Packing Area for the corresponding Sales Order.
- Step 5: Report short-picks or damaged items immediately to the Warehouse & Logistics Executive.
